Friday 6th December 2024

Ms Beesley's News

This week has been another busy week here at Northmoor Academy. The children have continued to make us very proud with their hard work and enthusiasm for learning. This term we have reintroduced class assemblies, and both Onyx class and Topaz class have hosted theirs this week. If you have been able to attend an assembly this term, I hope you have found it interesting and informative. The children and their teachers work really hard to make these things possible.

Finally, a gentle reminder that next week is the final week of clubs this term. There will be no clubs after school in the last week so if your child usually attends, please ensure that arrangements are made to collect them at 3:20pm.

Believe, Achieve, Succeed Awards

Ruby- Zimal

Y1 Sapphire- Zeid

Y1/2 Pearl- Richael

Y2 Topaz- Adam

Y3 Coral – Ibrahim

Y3 Garnet- David

Y4 Amethyst – Zainab

Y4 Citrine- Mary-Delight

Y5 Jet- Jael

Y5 Zircon- Maria

Y6 Aquamarine – Klevita

Y6 Onyx- Maryam

Word of the Week

Our word of this week this week was not an unfamiliar one, we talk about **attendance** all the time.

In our assembly and through reflection time in class we explored why attendance at school is so important and ways that we can make our attendance the best it possibly can be.

The children made some fantastic contributions to the discussion.

Film night Fundraiser

If you would like your child to attend Movie Night on Tuesday 17th December you **must** provide consent and pay £2 via ParentPay. A drink and some popcorn is included in the ticket price.

What's been happening this week?

Nursery

In Nursery class this week we have been reading the book 'Olivers Fruit Salad'. We have been learning about different fruits, and we made a mind map of what fruits we would like in our fruit salad.

Reception

In Ruby class this week we have been reading 'Whatever Next!' We have had lots of fun acting out the story. We have made our own rockets and made a list of what we would take to the moon. In Maths we used 2D shapes to create rocket pictures.

Year 1

In Sapphire class this week we acted out 'Remember the 5th of November.' We enjoyed pretending to be Guy Fawkes. In Maths we have been learning about length. We have been using cubes to measure objects.

Years 1 / 2 & 2

In Pearl and Topaz class we have been learning about length. Year 2 children have been using rulers to measure and Year 1 children we have measured with cubes. In English we have been learning about the main events of our story.

Year 3

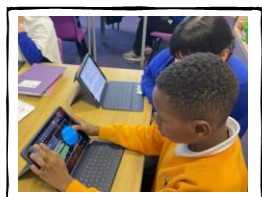

In Year 3 this week we have been terrific timekeepers! We have been reading time on an analogue clock and display time also! In English we have started our Non-Chronological Reports all about the Stone Age. Why don't you ask us some interesting facts about Stone Age diet?

Year 4

This week, Year 4 have been working on researching Russia in preparation for a non-chronological report next week. We researched for facts and then presented these to the class in a persuasive way to encourage them to visit. Here we are presenting to our peers.

Year 5

This week, Year 5 have been looking at Non-chronological reports based on Earth and Space. We have spent lots of time researching facts about The solar system and presented this to the rest of the class. Why don't you ask us some facts about the Sun?

Year 6

This week, Year 6 have started looking at writing a newspaper article. We began the week by interviewing potential characters, who may have been around during the first night of the Blitz. The responses we received in this activity will be used in our article. In maths, we looked at finding percentages of amounts. We began by looking at 10%, then 5%, and finally 1%.
